

# Rangelands Living Skin field day

## Rangeland rehydration

**Gurrawarra Station, NSW**

Tuesday 21 May 2024

**Venue:** Gurrawarra Station,  
5358 West Culgoa Rd  
Bourke, NSW

**Time:** 8.30am – 4.00pm

**RSVP:** by 16 May 2024  
(For catering purposes)

### Improving biodiversity and production

This field day is an opportunity to see first-hand the management strategies Glenn Humbert and Julie Conder are using to rehydrate their landscape, improve ground cover and boost biodiversity outcomes.

### Key topics of the day include:

- **Rangelands Living Skin Project**  
Meet the producers and project team and hear about the key findings of the project
- **Soil and landscape monitoring, function and rehydration**  
*Hugh Pringle – EMU*
- **Natural capital: overview and opportunities**  
*Milly Taylor – Integrated Futures*

- **Grazing management**

*James Barnet – RCS*

- **Soil chemistry and scald amelioration**

Visit a gypsum demonstration site and discuss rangeland soil constraints (*Karl Andersson – DPI*)
