

Best Practice Management of Non-mulesed Sheep PDS

Malahide Field Day

 **Tuesday, 23rd April, 2024 | 9.00am**

 [Monameta Sheep Yards, 1092 Mathinna Rd, Fingal TAS](#)

What is this PDS about?

Aggregate Consulting are managing a Producer Demonstration Site across 4 locations in the Southern Tablelands of NSW, and Tasmania, where the aim is to demonstrate and learn from practices that are being put in place to help manage non-mulesed merinos.

The objective is to see in practice the management changes that are being undertaken, and to learn critical things that are going to make the management of non-mulesed sheep easier and more cost effective.

See overleaf for field day agenda.

This event is funded by Meat & Livestock Australia
