

Data Collection Ideas for Land Managers

Ways for land holders to baseline their species, land condition, veg cover, soil health BEFORE a project started. These resources can also help with initial assessment of their co-benefit potential.

Apps of plants and animals

FrogID www.frogid.net.au Free	A Community for Naturalists iNaturalist	Qld Fishing 2.0 App
Birds Australia	My Dung Beetle Reporter	Merlin Bird ID App Free
www.qld.gov.au/environment/land/management/soil/soil-health	OzAtlas, Atlas of Living Australia	Veg Machine
i-naturalist	Google Lens	CSIRO /TERN RaPP Ground cover Tool
FORAGE	ww.padil.gov.au	Find a Frog in February by MRCC areas like Noosa, Gympie, Fraser coast, Sunshine coast

Consultants, Ecologists, Specialists you have worked with

Reef Catchments workshop to step LH through baseline mapping of their property.	Richard Eckhard rjeckard@unimelb.edu.au	www.farmlab.com.au
Prof. Steve Murphy Adaptive NRM (Birds, Fire, Cats)	Farmacist - collating info on carbon farming methods	Fireland Consultancy (All regions)
Chris Kahler, Ecological Interperitation NQ	Jim Tait Econcern NQ	Wren Mclean, Cassowary expert NQ

Volunteer Groups

Birdlife Mackay Facebook Group	Birdlife North Queensland	Birdlife Capricornia
Land for Wildlife network and Newsletters	Regen Ag Peer to Peer group	Rural Fire Service Groups
Local LandCare Groups	Orchid (or other specific plant) groups	Local Birdwatching Groups

Programs for multi-data collation

Beef calculator	Accounting for Nature Certification Standard	Atlas of Living Australia
HortCarbon Info	AgForce Carbon Calculator www.agcare.org.au	Wetlandinfo
BirdCast scenario planning tool for biodiversity on farms (ANU)	Core benefit Verification www.abcfoundation.org.	LOOC-C & LOOC-B Free
