Contribution of Livestock Exports to International Development

Proposal due: 27 May 2024

Submit to: nbaker@livecorp.com.au

The Livestock Export Program (LEP)

The Australian Livestock Export Corporation (LiveCorp) is the rural Research and Development Corporation for the livestock export industry in Australia. LiveCorp's mandate is to provide research, development, extension (RD&E) and marketing services that maximise the productivity, sustainability and competitiveness of Australia's livestock export industry.

Meat & Livestock Australia (MLA) is a research development corporation representing Australia's livestock producers.

LiveCorp and MLA have an active collaboration through a joint program known as the Livestock Export Program (LEP). The LEP delivers animal welfare improvements in Australia and overseas markets through funding programs in:

- Livestock management, health and welfare
- Market access and development
- Supply chain improvements
- Communication and stakeholder relationships
- Research, development and extension.

Project background

Increasingly organisations and industry sectors are being asked for evidence of sustainability and Environmental, Social and Governance (ESG) activities or intentions. Due to the public interest in the livestock export industry, there is particular scrutiny from the Australian government, financial institutions, the community, and even international trading partners.

Community sentiment research has shown strong recognition of the industry's contribution to destination markets, and it is one of the key drivers of both public trust and acceptance. However, the industry has relied largely on qualitative data, anecdotal evidence and storytelling to communicate these benefits, such as employment for communities around feedlots holding Australian-bred animals, the use of agricultural waste to feed livestock, and the human as well as animal welfare benefits from husbandry training provided to meet regulations.

Over the last few years, industry has made significant investment to quantify the socio-economic value of the trade domestically (sheep, dairy and northern cattle trade economic studies). However, these have all focused on the value to the Australian economy and local communities.

The opportunity exists to document the benefits of the trade against international sustainability reporting frameworks such as the United Nations (UN) Sustainable Development Goals (SDGs). The livestock export

industry is unique in its genuine reach and direct impact in-market and many of its top trading partners are developing nations. Therefore, the tangible first-hand contribution of the industry towards the SDGs is significant. The industry aligns with at least seven of the 17 UN SDGs and several other domestic and international sustainability/ESG frameworks and goals, which is notable for a single industry.

By capturing the full value of the trade across the entire supply chain – domestically and internationally – a powerful and compelling story can be told about the global benefit and positive impact of the trade.

Objectives

- Identify what quantitative and qualitative data is available to detail the international impact and benefits of the Australian livestock export industry towards the UN SDGs and other relevant domestic and international sustainability/ESG principles and goals.
- Provide information to feed into the industry’s broader community sentiment work, the State of the Industry report, and the Australian Beef and Sheep Sustainability Frameworks.
- The Australian community, agricultural sector, politicians and government officials, banks/financial institutions, international trading partners etc understand and see the value in the positive contribution of the livestock export trade to the social, sustainable and environmental development of its international trading partners.

Outputs

Through interaction with LiveCorp, LEP in-market staff and industry stakeholders, the successful tenderer will produce:

- A desktop assessment of domestic and international sustainability frameworks to identify principles and goals with relevance to the livestock export industry’s contribution overseas.
- Stakeholder engagement (especially LEP in-market managers) to identify potential metrics/sources of data in key markets/regions.
- A succinct, articulate and credible report that details the benefits of the trade against sustainability principles and goals, and reports specific metrics where available at a regional level for South-East Asia and the Middle East, and at a specific country level for industry’s top 3-5 markets.
- An infographic/short brochure to communicate the available metrics, especially where they align with the findings of the community sentiment work, to key stakeholders.

Fees and proposal format

The proposal should include an outline of the proposed plan, deliverables and fees in a table with the below elements (this may be elaborated on in keeping with the proposal’s design).

Milestones				
Milestone	Milestone Details	Date Complete	Research/ Service Organisation Fees	Expenses

Milestone #	<i>[Insert details of the Milestone that must be achieved, such as the provision of a Service or Deliverable or a particular stage of the Project that must be met]</i>	<i>[Insert the date by which the Milestone will be met]</i>	<i>[Insert the funds payable to the Research Organisation for this Milestone or particular rates/material basis]</i>	<i>[Insert the funds for expenses incurred by the Research Organisation for this Milestone or particular rates/material basis]</i>
-------------	---	---	--	--

If travel fees are to be sought separately from the costs of the project, an estimate of this cost should also be included (which will be reimbursed by LiveCorp based on actual expenditure).

Project timing

It is anticipated that the project will be delivered within 6-8 months of signing of the agreement. However, the tenderer should indicate if more/less time will be required.

Tender selection

In line with governance requirements to deliver value for money, this project will be put out for tender to identify the best-placed consultant to deliver the Terms of Reference.

The LEP RD&E Management Committee will review each proposal. The Management Committee will select the proposal that offers the most appropriate project plan and demonstrates the best value for money. They may also select a short list of tenderers to supply further details (if required).

Resources and skills required

The proposal should include all resources and personnel required to undertake the project together with a complete budget. This includes any subcontractors, their details, roles and expected fees.

Tenderers should demonstrate the skills and qualifications that position the proposed team as being the most appropriate for the project execution.

The submission should also detail two examples of previous work completed that is relevant to this project.

Terms of Agreement

Where no previously negotiated agreement is in place, unless stated otherwise, all terms of the standard agreement (see Appendix 1) will be deemed to be accepted by the tenderer. If the tenderer is proposing any variations to those terms, the tenderer must identify the clause, detail the reasons for non-acceptance and, if appropriate, provide the tenderer’s proposed alternative wording to the clause.

The consultant should advise in the proposal if they intend to introduce any background Intellectual Property (IP) or if they intend to seek any ownership of the final IP of this project.

Other terms

LiveCorp may seek to use the successful tenderers branding/logo (in line with style guides and branding/logo requirements) on the final outputs.

Confidentiality

The terms and details of any proposal will be treated as confidential.

Conflict of interest

Where tenderers identify that a conflict of interest might arise in the provision of goods or services contemplated by this request for tender, tenderers are to identify that potential conflict of interest in their tender.

16.3 Termination by LiveCorp

- (a) LiveCorp may terminate this Agreement in whole or part at its absolute discretion by giving the Research Organisation at least twenty (20) Business Days' written notice. The Research Organisation must comply with any directions given by LiveCorp in the notice in connection with the termination.
- (b) The Research Organisation recognises and acknowledges that the Budget (or part thereof) is comprised of Industry and Government Funding. Notwithstanding, and without limiting, any other clause of this Agreement, LiveCorp may immediately and without prior notice terminate this Agreement in whole or part at its absolute discretion if:
 - (i) LiveCorp is no longer the declared industry marketing body and/or industry research body for the livestock export industry; or

- (ii) it will no longer receive Industry and Government Funding for the Project.

16.4 Events of default

- (a) A party must notify the other party immediately if:
 - (i) a receiver, liquidator, trustee in bankruptcy or official manager or administrator of the other party or any of its business or property is appointed; or
 - (ii) the first party threatens to cease to carry on its business or is unable to pay its debts within the meaning of the *Corporations Act 2001* (Cth) or, in circumstances where one of the parties is a foreign entity, any equivalent legislation of the jurisdiction in which that foreign entity is registered.
- (b) A party (**Notifying Party**) must immediately notify the other party (**Other Party**) if:
 - (i) the Notifying Party purports to create a fixed charge over this Agreement or any part of it without the prior express written consent of the Other Party;
 - (ii) the Notifying Party tries to assign this Agreement other than strictly in accordance with the provisions of 22.2;
 - (iii) the Notifying Party disposes of the whole or any part of its assets, operations or business other than in the ordinary course of business; or
 - (iv) the Notifying Party ceases to carry on business.

16.5 Effect of termination

Termination of this Agreement does not affect:

- (a) any rights or liabilities which have accrued to either party before termination, nor any liabilities which may arise from damages deriving from a breach of this Agreement before termination; and
- (b) the operation of clauses 1, 5.2, 7, 8, 9, 10, 13, 14, 16.7, 18, of this Agreement, which clauses shall remain in full force and effect.

16.6 Consequences of termination

- (a) Upon notice of expiry or termination of this Agreement for any reason (other than under clause 16.1):
 - (i) if any funds in the Budget which have been paid to the Research Organisation remain unspent on the Project or the Assets, then the Research Organisation must promptly repay those funds to LiveCorp; and
 - (ii) the Research Organisation must immediately discontinue any work on the Project and must do all things necessary to minimise its further costs and expenses.
- (b) If LiveCorp terminates this Agreement in accordance with clause 16.2, LiveCorp:
 - (i) may recover any funds from the Budget paid to the Research Organisation that were allocated for work towards the Project or for the

purchase of Assets which have not been fulfilled or performed by the Research Organisation; and

- (ii) will be discharged from all present and future obligations under this Agreement.
- (c) If LiveCorp terminates this Agreement under clause 16.3, subject to the Research Organisation's compliance with clause 16.6(a), LiveCorp will pay:
 - (i) the Research Organisation for the Services and Deliverables supplied in accordance with this Agreement but not yet invoiced, substantiated to the reasonable satisfaction of LiveCorp; and
 - (ii) either:
 - A. the Research Organisation's reasonable and documented expenses incurred directly relating to the termination; or
 - B. any amount specified in this Agreement for which funds from the Budget were payable to the Research Organisation upon achievement or completion of a Milestone or Work Order Objective, and

LiveCorp will have no other liability to the Research Organisation as a result of its termination or early termination of this Agreement. In no case will the compensation payable as a consequence of termination by LiveCorp under clause 16.3 exceed the price that would have been payable if this Agreement had not been terminated.

16.7 Money recoverable by LiveCorp

Without limiting any other rights of LiveCorp under this Agreement or at law, any money due to LiveCorp under this Agreement and any damages, costs, expenses or other monies recoverable by LiveCorp from the Research Organisation as a consequence of the Research Organisation's breach of this Agreement or liability on account of an indemnity given by the Research Organisation in this Agreement, may be deducted from any money then due to the Research Organisation under this Agreement and if that money is insufficient, the balance remaining unpaid will be a debt due by the Research Organisation to LiveCorp and may be:

- (a) set off against any other money due to the Research Organisation by LiveCorp under any other contract between LiveCorp and the Research Organisation; or
- (b) recovered from the Research Organisation by LiveCorp in any court of competent jurisdiction.

17. Force Majeure

17.1 Event of Force Majeure

If as a result of Force Majeure, any party is rendered unable, wholly or in part, to carry out its obligations under this Agreement, other than the obligation to pay any amounts due, then, provided that the relevant party has taken all reasonable precautions, due care and reasonable measures with the object and intent of ensuring it is able to carry out its obligations, the obligations of the party giving such notice, so far as and to the extent that the obligations are affected by such Force Majeure, shall be suspended during the continuance of any inability so caused and for such reasonable period thereafter as may be necessary for the party to put itself in the same position that it occupied prior to the Force Majeure, but for no longer period.

17.2 Notice of Force Majeure

The party claiming a Force Majeure shall notify the other parties of the Force Majeure within a reasonable time after the occurrence of the facts relied on and shall keep all parties informed of all significant developments (including termination of the Force Majeure). Such notice shall give reasonably full particulars of the Force Majeure and also estimate the period of time which the party will probably require to remedy the Force Majeure. The giving of notice is a condition precedent to reliance on the Force Majeure. The affected party shall use all reasonable diligence to remove or overcome the Force Majeure as quickly as possible in an economic manner but shall not be obligated to settle any labour dispute except on terms acceptable to it, and all such disputes shall be handled within the sole discretion of the affected party.

17.3 Termination for Force Majeure

If a delay or failure by a party to perform its obligations due to Force Majeure exceeds forty (40) Business Days, either party may immediately terminate this Agreement on providing notice in writing to the other party.

18. Insurance

- (a) The Research Organisation warrants that it will take out, and maintain during the Term and for seven (7) years after the Term of this Agreement, at its own cost, the insurances specified in item 8 of the Work Order, with coverage in Australia and any other country in which the Services are performed or the Deliverables Provided. The Research Organisation must provide LiveCorp with any documentation and information required by LiveCorp in relation to details of the insurances, including copies of the policies, certificates of currency and any other evidence of renewal of the policies.
- (b) The Research Organisation must also take out and maintain during the Term and for seven (7) years after the Term of this Agreement, at its own cost, any insurance required to maintain and protect the Assets from loss or damage and, if required by LiveCorp, insure for their replacement value.

19. Conflict of interest

- (a) The Research Organisation warrants that, as at the Commencement Date, no conflict of interest exists or is likely to arise in performing its obligations under this Agreement.
- (b) If, during the Term of the Project, any actual, perceived or potential conflict of interest arises in respect of any Personnel, the Research Organisation must make sure that such Personnel immediately declare it to LiveCorp's Representative.
- (c) The Research Organisation and its Personnel must provide any information requested, and any declaration required, by LiveCorp at any time during the Term in order to satisfy LiveCorp that no conflict of interest exists or is likely to arise or otherwise to satisfy any probity requirements.
- (d) Failing to disclose a potential conflict of interest could result in the termination of this Agreement. If a conflict of interest arises and is not able to be resolved under clause 20 to the satisfaction of LiveCorp, LiveCorp may terminate this Agreement under clause 16.2.

20. Dispute resolution

- (a) If any dispute or difference between LiveCorp and the Research Organisation arises under or in connection with this Agreement (**Dispute**), then either party may notify the other of the existence and nature of the Dispute by issuing a notice in

writing which includes or is accompanied by reasonable particulars of the Dispute (**Dispute Notice**).

- (b) Within ten (10) Business Days after a Dispute Notice is given, an authorised representative of each party must meet and in good faith seek to resolve the Dispute.
- (c) If, within twenty (20) Business Days of receipt of the Dispute Notice, the Dispute is not resolved or an appropriate dispute resolution process is not agreed, then the parties agree to endeavour in good faith to settle the Dispute by mediation administered by the Australian Disputes Centre (**ADC**) before having recourse to litigation.
- (d) The mediation will be conducted in accordance with the ADC Guidelines for Commercial Mediation as amended from time to time (**Guidelines**), which set out the procedures to be adopted, the process of selection of the mediator and the costs involved and the terms of those Guidelines are incorporated into this Agreement. Each party agrees to execute such documents as may be required in order for a mediation to take place in accordance with the Guidelines, including respect of the agreement with any Mediator selected.
- (e) If the Dispute is not resolved at mediation or in any event within forty (40) Business Days of service of a Dispute Notice, either party may pursue its rights at law.
- (f) Nothing in this clause prevents either party from instituting court proceedings to seek urgent injunctive, interlocutory or declaratory relief in respect of a Dispute or this Agreement.
- (g) Despite the existence of a Dispute, the parties must continue to perform their respective obligations under this Agreement.

but if the communication is taken to be received on a day that is not a Business Day or after 5.00 pm, it is taken to be received at 9.00 am on the next Business Day in the place to which the communication is posted, sent or delivered.

22. General

22.1 Relationship of the parties

- (a) Nothing in this Agreement, and no action taken by the parties pursuant to this Agreement, shall constitute or be deemed to constitute between the parties a partnership, association, joint venture or other cooperative entity.
- (b) The parties' relationship shall be that of independent contractor and principal and the relationship of the parties shall not be that of principal and agent or employer and employee.

22.2 Assignment

The Research Organisation cannot assign, novate or otherwise transfer any of its rights or obligations under this Agreement without the prior consent of LiveCorp.

22.3 Binding effect of this Agreement

This Agreement binds the parties and any executor, administrator, transferee, assignee, liquidator or trustee in bankruptcy appointed in respect of it.

22.4 Governing law

This Agreement is governed by and must be construed according to the law applying in New South Wales.

22.5 Jurisdiction

Each party irrevocably:

- (a) submits to the non-exclusive jurisdiction of the courts of New South Wales, and the courts competent to determine appeals from those courts, with respect to any proceedings that may be brought at any time relating to this Agreement; and
- (b) waives any objection it may now or in the future have to the venue of any proceedings, and any Claim it may now or in the future have that any proceedings have been brought in an inconvenient forum, if that venue falls within clause 22.5(a).

22.6 Amendments

This Agreement and the Work Order may only be varied by a document signed by or on behalf of each party.

22.7 Severance

- (a) If a clause or a part of a clause can be read in a way that makes it illegal, unenforceable or invalid, but can also be read in a way that makes it legal, enforceable or valid, it must be read in the latter way.
- (b) If any clause or part of a clause is illegal, unenforceable or invalid, that clause or part of a clause is to be treated as removed from this Agreement, but the rest of this Agreement is not affected.

22.8 Waiver

- (a) Failure to exercise or enforce, or a delay in exercising or enforcing, or the partial exercise or enforcement of, a right, power or remedy provided by law or under this Agreement by a party does not preclude, or operate as a waiver of, the exercise or enforcement, or further exercise or enforcement, of that or any other right, power or remedy provided by law or under this Agreement.
- (b) A waiver or consent given by a party under this Agreement is only effective and binding on that party if it is given or confirmed in writing by that party.
- (c) No waiver of a breach of a term of this Agreement operates as a waiver of another breach of that term or of a breach of any other term of this Agreement.

22.9 Further acts and documents

Each party must promptly do all further acts and execute and deliver all further documents (in form and content reasonably satisfactory to that party) required by law or reasonably requested by another party to give effect to this Agreement.

22.10 Consents

A consent required under this Agreement from a party may be given or withheld, or may be given subject to any conditions, as that party (in its absolute discretion) thinks fit, unless this Agreement expressly provides otherwise.

22.11 Counterparts

- (a) This Agreement may be executed in any number of counterparts and by the parties on separate counterparts. Each counterpart executed and delivered by a party constitutes the agreement of that party, but subject to the condition precedent that no party is bound by any such counterpart until all parties have executed and delivered a counterpart.
- (b) A party may execute and deliver a counterpart of this Agreement either by:
 - (i) it or its solicitors effecting physical delivery of its executed counterpart to all other parties either itself or by its solicitors; or
 - (ii) it or its solicitors giving notice of its execution of its counterpart to all other parties by fax or electronic mail message:
 - A. to which is attached a copy or a printable electronic image of the whole of the counterpart or so much of it as is necessary to identify it and establish that it has been executed; and
 - B. which states that such fax or electronic mail message constitutes delivery of the counterpart as its agreement.

- (c) Where this Agreement is executed and delivered in counterparts, its date is taken to be the date on which the last of the parties to do so executes and delivers a counterpart and upon that event all such counterparts taken together are deemed to constitute one instrument.

22.12 Electronic execution

Each party consents to this Agreement being executed by the other party through an electronic signing platform, digital signature or electronic signature. The parties agree that the method described in this clause is reliable and appropriate for the purposes of identifying the signing party and executing the document.

22.13 Expenses

Except as otherwise provided in this Agreement, each party must pay its own costs and expenses in connection with negotiating, preparing, executing and performing this Agreement.

22.14 Entire agreement

To the extent permitted by law, in relation to its subject matter, this Agreement (including the Work Order):

- (a) embodies the entire understanding of the parties, and constitutes the entire terms agreed by the parties in respect of the Project; and
- (b) supersedes any prior written or other agreement of the parties in relation to the Project.

22.15 Indemnities

- (a) Each indemnity in this deed is a continuing obligation, separate and independent from the other obligations of the parties, and survives termination, completion or expiration of this Agreement.
- (b) It is not necessary for a party to incur expense or to make any payment before enforcing a right of indemnity conferred by this Agreement.
- (c) A party must pay on demand any amount it must pay under an indemnity in this Agreement.

23. GST

23.1 Interpretation

In this clause the term "GST" and all capitalised terms used have the meanings ascribed to those terms by the *A New Tax System (Goods and Services Tax) Act 1999 (Cth)* (as amended from time to time) (**GST Act**) or any replacement or other relevant legislation and regulations, except any reference to "**GST law**" which also includes any other legislation enacted to validate, recapture or recoup tax collected as GST.

23.2 Reimbursement

If a party is required under this Agreement to reimburse or pay to another party an amount calculated by reference to a cost, expense, or an amount paid or incurred by that party, the amount of the reimbursement or payment will be reduced by the amount of any input tax credits to which that party (or an entity on whose behalf the party is acting) is entitled in respect of any acquisition relating to that cost, expense or other amount.

23.3 GST on Consideration

If GST is or becomes payable on any party making a Supply (**Supplier**) made under this Agreement the parties agree that:

- (a) consideration for the Supply is to be considered exclusive of GST;
- (b) the Supplier may recover from the Recipient the amount of GST equal to the amount of GST payable by the Supplier on that Supply;
- (c) except to the extent that clause 23.3(d) is applicable, the Supplier will provide to the Recipient a valid Tax Invoice in respect of that Supply, no later than at that time; and
- (d) where amounts are payable pursuant to clause 23.3(b), amounts payable, to the extent that they are equivalent in amount, shall be set off against each other as if paid and each party shall be obliged only to give the other the Tax Invoice referred to in clause 23.3(c).

If any Consideration is specified in this Agreement to be inclusive of GST, that Consideration (or the relevant part) shall be excluded from the Consideration referred to in clause 23.3(a) for the purposes of calculating an amount of GST pursuant to clause 23.3(b).

23.4 Adjustment Event

Where an Adjustment Event occurs in relation to a Supply made by the Supplier under or in accordance with this Agreement the Supplier will issue an Adjustment Note to the Recipient in respect of that supply within ten (10) Business Days after becoming aware of the relevant adjustment.
