

Optimising Ewe Lamb Joining Outcomes

Online Meeting

📅 25 February, 2025 | Time 12:00PM – 1:00PM

📍 Online

About the Project

The ‘**Optimising ewe lamb joining outcomes**’ PDS aims to demonstrate the process and additional management skills required to successfully join ewe lambs. The project began in February 2023 and will run until December 2026. We have now compiled the results from the last two years of ewe lamb joining's. This includes the 2022 drop ewe lambs, their progeny (2023 drop) and the lambs born from these progeny (2024 drop). We are excited to continue to build on this data to give insightful information.

Meeting Agenda

All producers and observers welcome.

Please find the agenda below:

- Overview of the Project
- 2024 Project Findings
- Regulin
 - Special guest Dr Kelsey Pool (University of WA)
- How to Use Your Standard Reference Weight When Joining Ewe Lambs

This event is funded by Meat & Livestock Australia with the support of SheepMetriX and Productive Livestock Systems.
