

Optimising ewe lamb joining outcomes

Producer Demonstration Site - Field Day

 **Wednesday 26 March 2025 | AEST 9:15am – 12:30pm**

 **3035 Jugiong Road, Jugiong NSW 2726**

About the project

The **'Optimising Ewe Lamb Joining Outcomes'** Producer Demonstration Site (PDS) aims to demonstrate the process and additional management skills required to successfully join ewe lambs. The project began in February 2023 and will run until December 2026. We have now compiled the results from the last two years of ewe lamb joinings. This includes the 2022 drop ewe lambs, their progeny (2023 drop) and the lambs born from these progeny (2024 drop). We are excited to continue to build on this data to give insightful information.

Field day agenda

All producers and observers welcome.

The field day will incorporate discussions from the host site producers and the project team, with the range of topics to include:

- Project update
- Insights into ewe lamb reproduction success
- Decision support framework development
- Inspect ewe lambs and progeny:
 - 2024 Drop Ewe Lambs to be joined
 - 2024 Drop Ram Lambs
 - 2024 Drop lambs out of Ewe Lamb Dams (2023 Drop)
